mysql

DATA SCIENCES

Regression Decision Trees
XGBoost Random Forest

SUHAIL GULZAR

FULL STACK MERN DEVELOPER

EXPERIENCE

Full Stack Developer | JOB

Rooman Technologies, Bangalore, India | June 2018 – Dec 2018
Being part of the team, my job ranged from creating frontends in ReactJS to deploying RESTful API's.

Full Stack Developer | INTERNSHIP

CRIE, Jammu, JK, India | May 2017 – March 2018
Worked as project lead during development of a cloud-based learning platform.

ALMA MATER

M.Tech in Computer Science and Engineering

SMVDU, JK, India | 2019 – Pursuing | Current GPA standing 7.4

B.E in Computer Science and Engineering

MIET, JK, India | 2014 – 2018 | Graduating percentage 66.4%

PROJECTS

GNOSIS

Objective of this project was to promote non-formal learning mechanisms where the student are attuned to assimilate knowledge in form of short messages. Worked as project head, designed and developed web app using RESTful API with NodeJS, MongoDB, Express, Firebase and other API's.

ESP8266-IOT-WebServer

An arduino based firmware for nodemcu (ESP8266) to control one to eight relay modules simultaneously through a responsive web interface.

Telecom Churn Rate (ML)

The aim of this project was to predict if a customer would churn to a differnt network. The result was a ML model which could predict churn of customers with the accuracy of 91%.
